- Selected to support MISSO leadership initiatives and member engagement efforts
- Assist with event planning, organization communication, and team coordination
- Collaborate with executive members on professional development and student outreach activities

Angies Furniture | Houston, Texas

November 2020 – Present

Sales Associate

- Manage daily cash register operations and reconcile transactions totaling up to \$10,000 per shift with accuracy
- Process cash, credit, and financing transactions while ensuring compliance with company policies
- Assist customers through the credit application process, verifying documentation and ensuring data entry
- Drive sales through strategic merchandising and maintaining visually appealing product displays
- Deliver personalized customer service, increasing repeat business and customer satisfaction
- Support inventory tracking and coordinate with team members to maintain efficient store operations

PROJECTS

Fantasy Basketball Analytics platform | Personal Project

June 2026 - Present

Full-Stack NBA Analytics Web App – React, TypeScript, FastAPI, PostgreSQL

- Architected a full-stack NBA analytics platform with a normalized **PostgreSQL** schema, a RESTful **FastAPI** backend, and a provider-abstraction layer that decouples business logic from underlying data source
- Built a **Python** data ingestion pipeline syncing 30 teams and 570+ players from a live third-party NBA API into the relational database
- Developed a searchable, paginated **React** and **TypeScript** fronted consuming a self-documented **REST API (OpenAPI/Swagger)**
- Implemented database migrations (Alembic) and automated API tests (pytest); deployed the codebase to GitHub

University of Houston HackMISSO 2026

Spring 2026

Employee Financial Wellness Platform

- Designed a financial wellness platform to improve employee engagement and reduce financial stress through data-driven insights
- Translated business requirements into system features, including budgeting dashboards, savings trackers, and benefits education tools
- Developed UI/UX prototypes in **Figma**, focusing on usability for non-technical users
- Mapped system workflows, user journeys, and platform architecture to align with stakeholder needs
- Presented solution to judges, communicating business value, technical design, and implementation strategy

University of Houston, BCIS 1305: Business Computer Applications

Fall 2024

Data Analytics Excel Project

- Imported and Processed Contemporary National Oil & Gas Data from the Energy Information Administration, the Centre for Medicare and Medicaid Services, Netflix, etc.
- Generated comprehensive data outputs to visually present findings, including statistical analyses

University of Houston, BUSI 3302: Connecting Bauer to Business

Spring 2024

City of Pearland: Behavioral Insights on How Employees Process and Respond to Organizational Information

- Collaborated with a team of 8 to analyze the internal communication systems utilized by the City of Pearland local government
- Conducted research to internal communications systems used by nearby local governments of similar size, and used findings to suggest possible improvements to the City of Pearland
- Served as the team proofreader, reviewing and editing all written deliverables for clarity, accuracy, grammar, and professional tone
- Presented findings to HR staff

SKILLS
